

Critical Illness Insurance with an Infectious Disease Benefit

For the Team Members of ECU Health

What is Critical Illness insurance? Critical Illness insurance pays a lump-sum benefit if you are diagnosed with a covered illness or condition on or after your effective date of coverage. Critical Illness Insurance is a limited benefit policy. It is not health insurance, and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.

Did you know?

An Infectious Disease Benefit is included with the Critical Illness insurance offered at Vidant Health. This pays 25% of your Critical Illness benefit amount if you are diagnosed with a severe infectious disease that results in you being confined to a hospital for 5 or more consecutive days or a transitional facility for 14 or more consecutive days. Examples of diseases include, but are not limited to, **COVID-19**, Sepsis and Bacterial pneumonia. If your spouse and/or dependents are covered by Critical Illness Insurance, they are also eligible for the Infectious Disease Benefit. For a complete description of benefits, exclusions and limitations, refer to your certificate of insurance and riders.

If you are enrolled in Critical Illness Insurance, you have already taken steps towards protecting yourself and your family against the unexpected. Your coverage includes the Infectious Disease Benefit—no further action is needed.
