Introducing bswift

New ECU Health benefits enrollment platform

Effective Aug. 1, 2024, ECU Health will begin using bswift – the new ECU Health benefit administration platform – that will enable team members to enroll in or make changes to their benefits.

What does this change mean for you?

The bswift platform offers several enhancements to your enrollment experience:

1. Supports you with an intuitive platform and benefits comparison resources
2. Empowers you to understand how each benefit works so you can choose the best options for you
3. Enables you to sign up for benefits online in a few easy steps
4. Administers the dependent verification process in the same platform where you are enrolling for or making changes to your benefits
5. Provides you with the ability to complete more than one event at a time with minimal delays
6. Offers the bswift mobile app to give you access to your personalized benefits and related benefits documents no matter where you are

How will I access bswift?

7. Team members will access bswift through the Benefits Enrollment tile in Employee Self Service with your ECU Health User ID and password as follows:
 - ▶ Simply go to myhr.ecuhealth.org
 - ▶ Enter your ECU Health User ID and password
 - ▶ Select the Benefits Enrollment tile and this will direct you to the single sign on page. Enter your ECU Health email account and Employee Self Service password and this will seamlessly direct you to your personal bswift enrollment page
8. You may also enroll by downloading and logging in to the bswift app through the App Store (Apple) or Google Play (Android).
